

VIKING GOLD

YOUR BIKE'S ULTIMATE GUARDIAN

WHAT IS VIKING GOLD

Viking Gold is Seatylock's ultra-secure premium chain lock that combines maximum security with durability and ease of use. It features a 17/18 internal security rating, Sold Secure Gold certification, and FUB 2 Wheels rating, offering proven protection against theft. Viking Gold is ideal for riders who won't compromise on safety.

WHY VIKING GOLD

Viking Gold is the ultimate choice for riders who demand maximum security and peace of mind. Its 10mm square-shaped hardened steel links are stronger and harder to cut than the regular ones, providing exceptional resistance to cutting and leverage attacks. The patented magnetic locking system and automotive standard cylinder makes operating the lock quick and effortless. Fully weatherproof with a water-resistant neoprene sleeve that protects your bike from scratches, and an automatic keyhole cover that shields against water, dirt, and dust. Viking Gold offers long-lasting protection for both your bike and the lock itself - built to guard your bike for years to come.
